available & the medl. Deptt for accommodating the lunatics and it is expected that the Camp will not be available for the public for about 2 months.

Separate sheds are now urgently required for plague patients and Contacts The Health request for 24 temporary sheds and 5 wards in Civil Hospital has to be sanctioned Early

The Presidt has not agreed to the question of cost and there is no Specific provision from which this Expenditure could be met The Presidt. has however suggested that the work should be undertaken by the P.W.D. Evidently because that the sheds and wards now under occupation by the lunatics were being used by the Milty hitherto

In case the Milty is unwilling to bear this charge the P.W.D. will have to be asked to point out the source for carrying out the work besides carrying out the work themselves

Kind reference is invited to the routine notes below. As instructed by the Revd Secy the file is submitted for orders.

The following points however require to be considered now -

(1) Whether the ~~and~~ construction of additional sheds should be undertaken now in view of the fact that over a month has already passed since the removal of the lunatics. The removal of the lunatics was for a temporary period of 2 months. The Sr. Surgeon may be asked whether the lunatics may not be shifted to the lunatic asylum within fortnight or so.

(2) In case the lunatics have to be kept on in the Nagar Camp for a couple of months more, it has to be decided at whose cost the new sheds required by the authority have to be constructed.

GOVT. & REP.
9 NOV 1917

Arrangements for the temporary accommodation of lunatics in the Contact Camp sheds having been only partially completed on the 29th September 1917, the removal of Indian male lunatics alone was effected on the 30th idem.

The Indian female lunatics and European male & female lunatics could not be shifted from the Asylum premisses, as accommodation for them was not available. These lunatics that were not shifted were, however, inoculated against Cholera. Even the lunatics that had been removed to the Contact Camp have been inoculated against Cholera twice over, so that these may safely be brought back to the Asylum and the sheds made over to the Municipality.

The removal of the lunatics back to the Asylum will be effected as soon as the sanction of Government (for which I am separately applying) is obtained.

Submitted with Dr. Shapur's forwd. The idea of having a number of fresh sheds as proposed by the Presidt may be dropped for the present. The letter promised by Dr. Shapur may be awaited.

If in the meanwhile, a few sheds are urgently required, the Presidt, Municipal, may be requested to have sheds put up to serve an immediate necessity. The Presidt may be informed about the contemplated removal of the lunatics back to the Asylum.

SIR,

Adverting to your letter No. 1727/Mad.43-17-6 dated the 14th September 1917 addressed to the Senior Surgeon, calling for proposals in consultation with me for making the contact camp in which the lunatics are at present temporarily accommodated available to the public, I have the honor to state that the entire contact camp has since been fitted up so as to suit the requirements of the lunatics and it may not be possible to disturb them for at least a couple of months to come. It is therefore suggested that a temporary contact camp consisting of at least 24 sheds may be caused to be erected on the vacant site to the North of the present camp and water and lighting facilities provided therefor as early as possible.

2. The Senior Surgeon who was consulted in the matter seems to be agreeable to the above proposal.

3. I therefore request that Government may be pleased to issue orders

Submitted to the Honorary President:-

Since there were 5 indigenous cases of Plague in the City and 8 admissions of Plague cases from the neighbouring villages direct into the Epidemic Disease Hospital from 1st July 1917, and it is feared that there may be a recrudescence of Plague during the cold months of October, November and December, an account of the recent heavy rains we had during August and September and as Plague is raging in the villages round the City, Wards in the E.D. Hospital will not be sufficient, as 5 of our wards have been already fitted up with enclosure for the temporary location of the inmates of the Lunatic Asylum, besides the wnole of the contact camp. We have at present 24 indigent patients and we have to find accomodation for the incurable patients sent from the Minto & Victoria Hospitals. As such for want of sufficient Wards, the convalescent patients who were in fair way of recovery, have to be kept along the rest of the sick with acute symptoms.

Under these circumstancesit is requested that the Honorary President will be so good as to make a reference to the Government for the construction of 5 Wards of similar dimensions in lieu of the 5 made ready for the occupation of the lunaties.
